Curriculum Statement

Pupils are placed in aged based classes. The curriculum planned for the school includes all the statutory requirements of the Foundation Stage Areas of Learning and the National Curriculum. It is balanced and broadly based and most of it is taught through cross-curricular themes to ensure relevance across the curriculum. Such themes are initially planned by the whole school to ensure continuity, breadth, balance and differentiation. Care is taken in the coverage and progression of skills and concepts at all stages, as well as ensuring that the aims and knowledge content for each age group are catered for. Throughout the school, the aim is to provide the children with a wide variety of interesting experiences through topic work, thus helping to develop their potential. The Areas of Learning and the National Curriculum apply to all children unless exemption has been made for an individual through a statement of special educational needs. Curriculum documents can be accessed through the head teacher. We also cross reference all aspects of learning to the Literacy /Numeracy Framework.

Additional Learning needs

Aberaeron Primary School provides for a whole range of Additional Learning Needs and endeavors to identify any needs a pupil may have as soon as possible. The school has a number of pupils identified as needing various levels of support.

All monies allocated for SEN are utilised to purchase the time of two specialist teachers, ICT equipment and resources. As much time as possible is given to the pupils according to their needs. By working with parents and external agencies, the school endeavours to obtain extra support when necessary and thus cater for individual needs. Pupils who are allocated individual support are provided with this as financed by the LEA.

When pupils move to the school from another school, staff endeavor to obtain all the relevant SEN information and strive to ensure continuity of provision. All relevant SEN documentation and information is transferred with the pupil when he/she moves school and staff attend relevant KS.2/3 transfer meetings for SEN pupils at the Comprehensive School.

Individual Education Plans with targets are written with the pupils involved and discussed with parents. A range of resources such as Lucid Cops, - are used to assist teachers with identifying pupils' needs.

Language Category

In accordance with Ceredigion’s language policy, Welsh is the main language of the school. English is introduced formally as a subject in Key Stage 2 (years 3 – 6). The school aims to ensure that all pupils are completely bilingual by the age of 11.

Attendance

The school’s attendance was 96.5% during the academic year 2013-2014 and as a result this year the school was placed in the first band. The attendance percentage doesn’t look as strong for the academic year 2014-2015 and therefore our target for the next academic year is 96% which is still above the authority target. Pupils with attendance levels below 80% are monitored carefully. The school follows ERW’s attendance policy regarding procedures dealing with unauthorised absences.

Polisiâu/Policies

Adolygir bolisiau’r ysgol yn flynyddol. All policies are revised annually.

School Development Plan, Self Evaluation

The School Development plan is updated annually with priorities being recognised as a direct result of the school’s self-evaluation processes. All visits from the authority challenge advisers have supported and reinforced the school’s ability in identifying areas for improvement accurately. Progress against focused areas for improvement are revised termly and the school

has made good progress against targets during the last academic year. The main areas earmarked for the academic year were literacy and numeracy. This year the school was placed in the 'yellow' category of support in the national categorisation model.

The school continues to monitor progress against the recommendations of the 2011 Estyn Inspection.

School Prospectus

Changes have been made to reflect staff and governor changes, dates and end of KS results. The school prospectus will be revamped during the next academic year.
