#### Pupil Deprivation Grant

The Pupil Deprivation Grant (PDG) is allocated to schools with pupils who come from low-income families and are currently known to be eligible for free school meals (e-FSM) and pupils who have been looked after continuously for more than six months (LAC). Schools are expected to make the best use of this funding to implement sustainable strategies that will quickly bring about changes for learners eligible for free school meals or who are LAC.

As a school we have agreed the following three steps:

- to identify the target group of pupils, its characteristics and needs
- to plan interventions which make the most effective use of resources
- to monitor and evaluate the impact of resources

In 2015-16 Ysgol Gynradd Aberaeron was provided with a PDG allocation of £8,300.

At Ysgol Gynradd Aberaeron we have a comprehensive plan, agreed and monitored by Ceredigion Local Authority and ERW, to promote progress and remove barriers to learning for students eligible for this funding.

We have used the funding available to:

- enhance teaching and learning by providing various programmes of support
- provide intervention and support programmes that are proven to have the greatest impact and to be sustainable- Catch Up, Dyfal Donc, Satpin,Trandep, Cyfri Ceredigion
- provide specific high quality training for school staff based on Numeracy and Literacy

- implement and use data tracking systems to identify learners' needs, target interventions and monitor impact
- provide educational evenings for parents
- work in partnership with other schools, the community and other organisations e.g. Social Services and the Secondary School
- Developed leadership capacity to prioritise the impact on the quality of provision and outcomes

### Curriculum Statement

Pupils are placed in aged based classes. The curriculum planned for the school includes all the statutory requirements of the Foundation Stage Areas of Learning and the National Curriculum. It is balanced and broadly based and most of it is taught through cross-curricular themes to ensure relevance across the curriculum. Such themes are initially planned by the whole school to

ensure continuity, breadth, balance and differentiation. Care is taken in the coverage and progression of skills and concepts at all stages, as well as ensuring that the aims and knowledge content for each age group are catered for. Throughout the school, the aim is to provide the children with a wide variety of interesting experiences through topic work, thus helping to develop their potential. The Areas of Learning and the National Curriculum apply to all children unless exemption has been made for an individual through a statement of special educational needs. Curriculum documents can be accessed through the head teacher. We also cross reference all aspects of learning to the Literacy /Numeracy Framework.

#### Additional Learning Needs

Aberaeron Primary School provides for a whole range of Additional Learning Needs and endeavors to identify any needs a pupil may have as soon as possible. The school has a number of pupils identified as needing various levels of support.

All monies allocated for ALN are utilised to purchase the time of a specialist teachers, ICT equipment and resources. As much time as possible is given to the pupils according to their needs. By working with parents and external agencies, the school endeavours to obtain extra support when necessary and thus cater for individual needs. Pupils who are allocated individual support are provided with this as financed by the LEA.

When pupils move to the school from another school, staff endeavor to obtain all the relevant SEN information and strive to ensure continuity of provision. All relevant SEN documentation and information is transferred with the pupil when he/she moves school and staff attend relevant KS.2/3 transfer meetings for SEN pupils at the Comprehensive School.

Individual Education Plans with targets are written with the pupils involved and discussed with parents. A range of resources such as Lucid Cops, - are used to assist teachers with identifying pupils' needs.
